

PROPOSED VISITING VEHICLE USE MAP

The **Proposed Wharton State Forest Visiting Vehicle Use Map** consists of 200 miles of routes for vehicle use. Factors in selecting these routes were:

- natural and historic resources
- emergency access
- recreational access
- traditional uses

Having a well-defined network of routes available to visitors will allow for protection of natural and historic resources and routine maintenance, resulting in safe exploration of the forest, efficient enforcement and most importantly, visitor safety.
